Event (8:00 AM – 4:30 PM)

NOVEMBER

- 20 **Dinner Program**
Topic: FRP Strengthening Systems Using New ICRI 330 Guide Specifications
Westwood Tavern, Schaumburg, IL
Event Starts 5:00 PM / Dinner 6:00 PM
- 30 **Holiday Social**
Location: TBA
Event Starts 5:00 PM

OUR ASSOCIATION...

ICRI, the only association in the concrete industry devoted solely to repair and restoration, publishes a bimonthly magazine and technical guidelines for concrete repair, and cosponsors the World of Concrete. Local chapters provide regional networking opportunities. Worldwide membership include contractors, manufacturers, engineers, distributors, owners, and other professionals with a common goal: prolonging the useful life of concrete through quality repair, restoration, and protection.

OUR MISSION...

The mission of the International Concrete Repair Institute is to be a leading resource for education and information to improve the quality of repair, restoration, and protection of concrete and other structures in accordance with consensus criteria.

LETTER FROM OUR PRESIDENT

As everyone in the repair industry is busy, Labor Day sneaks up on us as a reminder that summer is coming to a close. Based on discussions with ICRI members, it seems as though we have a lot of projects still in full swing and a number of new projects starting late in the season. The size and the extent of the structural repair projects seem to be getting larger.

This makes me reflect on where the repair industry was 25 years ago in regards to both repair methods and materials. What a long way we have come! So many improvements have been made in materials, cathodic protection and repair procedures. It is inspirational how research, testing and evaluation of repair methods and materials have all come together with the aid of top professionals in the industry at ICRI. Better than that, is the sharing of information between competitors, which is found in no other industry. We need to continue to inspect and police our own repairs, to make sure they are being performed properly. With quality control and the aid of ICRI certification programs, we can take the repair industry to the next level.

This is a reminder of the importance of ICRI, repair procedures and technician certification programs. I'd like to invite you to attend our upcoming September Dinner meeting on 9/18/18 at the Erie Café where Ken Lozen will be speaking on the ICRI Concrete Surface Repair Technician (CSRT) Certification Program and the Impact on the ACI 562 repair code.

Sincerely,

Jim Fadellin

ICRI Chicago Chapter President

CHICAGO CHAPTER 2018 OFFICERS & DIRECTORS

ICRI CHICAGO CHAPTER 2018 TECHNICAL SEMINAR ANCHORING TO CONCRETE

Thursday, October 25

Join us for a Full Day of Anchoring Presentations!

The Chicago Chapter of the International Concrete Repair Institute (ICRI) is pleased to announce the Anchoring to Concrete Technical Seminar! The event provides an opportunity for manufacturers, contractors, engineers, and industry leaders to share best practices, lessons learned, and the ins and outs of anchoring to concrete.

The Seminar is a single day-long event (8:00 AM to 4:30 PM) featuring classroom and laboratory sessions with the following agenda:

- Design of Post-Installed Anchors
- Qualification Standards
- Case Studies
- Inspection and Certification Requirements
- Live Anchor Installation Demonstrations and Trade Show by:
 - Hilti
 - ITW Red Head
 - Powers Fasteners
 - Simpson Strong-Tie
 - American Concrete Institute
- Live Anchor Testing showing typical failure modes

The presenters will include Don Meinheit and John Pearson of Wiss, Janney, Elstner Associates, Inc. (WJE) and Michael Morrison of American Concrete Institute (ACI). Anchoring manufacturer representatives and WJE laboratory staff will perform the live anchor installation demonstrations and testing.

Attendees of the Seminar will receive 6 hours of continuing education credit.

The Seminar will take place on **Thursday, October 25** at WJE Headquarters and Laboratory located at 330 Pfingsten Road in Northbrook, Illinois. Please register by **Friday, October 12** to guarantee your place. Registrations made after that time will be accommodated if possible, but we cannot guarantee that space will be available.

APRIL DINNER MEETING HIGHLIGHTS

On April 17, 2018, The Westwood Tavern hosted a joint event for the Chicago Chapter of ICRI and the Precast/Prestressed Concrete Institute (PCI). Peter Tarara and Tim Fitzgerald from Wiss, Janney, Elstner Associates, Inc. and Steve Genovese from Western Specialty Contractors presented Distress and Repair of Precast Parking Decks.

The presentation focused on common issues observed in pre-topped double-tee precast parking garage decks, performance issues related to flange-to-flange connections, various repair techniques that have been successfully used in the past, and construction methods and coordination. The specific parking deck case study highlighted solutions to a variety of problems ranging from partial collapse of the double-tees, significant cracking adjacent to the double-tee flange connectors, failed connections and water leakage throughout. The presenters also emphasized the construction logistics of the project to satisfy the owner's daily parking requirements.

All 80 members from ICRI and PCI enjoyed the delicious food, presentation and networking. Our thanks go out to our presenters and our friends at PCI who helped make the dinner meeting such a success.

23RD ANNUAL GOLF OUTING HIGHLIGHTS

On Thursday, June 7th, The Chicago Chapter of ICRI hosted our 23rd annual Golf Outing & Scholarship Fundraiser at White Pines Golf Course in Bensenville. This year's event was another great day of golf and fun, providing a much needed break from the rigors of our industry in the midst of another busy construction season.

This year's scholarship recipient, Dominic Raffin, will be enrolled at Purdue University, pursuing a career related to our industry. We would like to send a big thank you to our attendees, generous sponsors, and volunteers for making this another successful event.

ICRI CHICAGO CHAPTER SCHOLARSHIP PROGRAM

The ICRI Chicago Chapter Scholarship Program's goal is to assist local under-graduates who have decided to study Engineering, Architecture, Construction Management, Concrete Industry Management, or a related field. Many qualified applicants participated in the submittal process this year and we are proud to announce that Dominic Raffin from Purdue University is the recipient of the 2018 ICRI Chicago Chapter Scholarship. This year's award is in the amount \$5,000.00.

The ICRI Chicago Chapter Board of Directors would like to officially congratulate Dominic! We would also like to thank Steve Genovese, Lee Sizemore, Vic Ligocki, Will Kroncke, Trocki Wojciech, and Chris White who have put forth a tireless effort in the selection process. We look forward to the 2019 Scholarship Program.

I cannot begin to express how deeply grateful I am for this award. Scholarships like these prove how devoted ICRI is toward future generations and how dedicated they are to concrete repair. Thank you for this award, but more importantly, thank you for investing in the future of concrete expertise.

— Dominic Raffin

SEPTEMBER DINNER MEETING ANNOUNCEMENT

CHICAGO CHAPTER
EDUCATION COMMUNICATION PARTNERSHIP
PROFESSIONAL
DEVELOPMENT

September Dinner Meeting

IMPACT of ICRI CSRT Certification Program on the ACI 562 Repair Code
Speaker: Ken Lozen, Technical Director

Tuesday, September 18 - Erie Cafe
536 West Erie Street - Chicago, IL - 5pm-8pm

Join us at our September Dinner Meeting where Ken Lozen, FICRI, FACI Technical Director at International Concrete Restoration Institute-National will present **ICRI CSRT Certification Program and Impact on the ACI 562 Repair Code.**

Overview: The presentation will focus on the ICRI Concrete Surface Repair Technician (CSRT) Certification Program and its development to address industry demand and code language for providing qualified inspectors on repair projects. Program content will be described for performing pre- and post-placement inspections and testing. The online training program provides valuable information to both novices and seasoned veterans in the repair industry. The presentation will also provide an update on the Concrete Slab Moisture Testing Technician (CSMTT) Certification Program and ICRI activities, including other educational/certification products under development.

2018 ICRI FALL CONVENTION "RESILIENCY ABOVE AND BEYOND CONCRETE RESTORATION"

Plan to join the International Concrete Repair Institute in Omaha, Nebraska. Expand your understanding of concrete repair, protection and restoration through networking, technical sessions, and participation in ICRI National Committee Meetings. Earn PDH credits by attending technical sessions.

Call for Entries

2018 ICRI Chicago Chapter

OUTSTANDING Concrete Repair Projects

AWARDS PROGRAM

Award Criteria. Entries will be judged on uniqueness, use of current technologies & materials, functionality, value engineering and aesthetics. The Judges - ICRI Chicago Chapter Awards Board of Directors and Committee Members - consist of Engineers, Contractors and Manufacturers working within the Concrete Repair Industry.

Eligibility. The project must be at substantial completion phase by October 1st, 2018. A single-phase of a long term project may be submitted provided it meets the same timeline. Concrete repair or restoration must be the MAJOR component of the overall project. The project must be designed, performed or supplied by an ICRI Chicago Chapter member.

Deadline for Entry. The deadline for receipt of the entry application is DECEMBER 31st, 2018 to:

AWARDS.ICRI.CHICAGO@GMAIL.COM

Awards. Winning Projects will be announced in the February issue of the Concrete Reinforcer and presented at the ICRI Chicago Chapter 2019 February Dinner Meeting
